SUBJECT : WIWA PLURAL SPRAY EQUIPMENT FOR APPLICATION
OF SIGMA FIREBARR 2000

Dear Sir / Madam,

With reference to the subject matter hereby we confirm that the test application trials carried out on site of WIWA Wilhelm Wagner GmbH & Co. KG – Lahnau, were found to be very successful. Based on the positive results we can regard the WIWA Duomix 333PFP as suitable for application of Sigma FireBarr 2000 (Hydrocarbon passive fire protection coating), provided that Sigma's application procedure and the technical recommendations as stated in the relevant product data sheets are observed.

Consequently, WIWA are at the liberty to sell this equipment to Sigma FireBarr 2000 qualified applicators.

Furthermore, Sigma Coatings reserves their rights to review the qualification of the applicators and the spraying equipment on site with conjunction with the application set up on project, as required by the Sigma Coatings' Quality Management System.

Yours faithfully,

K. Nikolov
